Mission Statement

Our Mission is to make All States Casters your preferred caster destination in all caster products by delivering outstanding value, continuous innovation, coupled with unparalleled customer experience by consistently fulfilling all expectations and promises.

Warranty

All States Casters has an unmatched warranty on all stainless-steel products. We offer a 2-year warranty on stainless steel product from date of purchase. A 1-year warranty on all zinc product from date of purchase.

About All States Casters

All States Casters, a division of All States Equipment, L.P., was founded in Austin, Texas in 1990, for the express purpose of marketing and selling casters to the food manufacturing and retailing industries. We quickly learned that stainless steel casters were the only casters that offered the performance and longevity needed in food processing environments where frequent washing & cleaning of equipment is required. After substantial penetration into the food industry, a decision was made to add the medical and pharmaceutical sectors to our stainless caster marketing program. Our commitment, going forward, is to continue to grow our caster business in these underserved markets by offering high quality, long lasting casters and wheels coupled with unparalleled customer service.

We concentrate much of our time and energy specifying and selling stainless steel casters, we can and do, offer the full range of standard zinc-plated casters for those environments where stainless steel is not required. However, in keeping with our emphasis on quality and longevity, we try to specify and recommend high performance casters that roll easier and last longer to provide our customers the most ergonomic and value-added products possible. We understand the importance of adding value to our customer's bottom line by reducing their cost of ownership through reduced caster replacement costs. A word to the wise when it comes to selecting casters! The lowest priced caster is rarely the best value, and may very well increase your replacement costs, equipment down-time; and, reduce operating efficiencies.

This catalog has been designed for all maintenance and other personnel to reference corresponding products and quickly identify which wheel and caster is needed. While drafting this catalog, our thoughts have been on saving time, easy reference, and selection. Please contact us at 512-832-9821 for questions or request of products.

K-16LC- Kroger Part# 18339- Price: \$ 20.95

- 16 oz. spray can Spray on lube (-40°F to 600°F; NSF listed; H-2 rated)

K-12LC – Kroger Part# 71077- Price: \$ 245.95

- 16 oz. (One case of 12)

K-8LC – Kroger Part# N/A- Price: \$15.95

- 8 oz. spray can

LubriClean advantages

Exceptional Wear Protection: It has one of the highest lubricity ratings to protect against wear, friction, Rust and corrosion; thus, extending bearing, chain and equipment life.

Non-Carbonizing: This is a clean, ash-less fluid-film leaving no residue when dissipating, which does not Allow carbonization nor oxidation to occur while lubricated.

Low Evaporation & Volatility: Very stable in high temperatures, provides longer lubrication intervals, Saves money on lubricant consumption, has less smoke and no objectionable odors.

High Flash Point: It can be applied to either a hot or cold item while in production, hence reduced Maintenance costs and increasing productivity, but cannot be sprayed near flames.
